PROJECTS

Cries of the Wild – Unity Puzzle Game (2024)

- Built a single-player environmental puzzle game in Unity using C#, implementing gameplay mechanics, enemy AI, and level progression systems.
- Composed original music, designed art assets, and produced sound effects; integrated all audio-visual elements to drive storytelling.

NYAS Project of Distinction – "Bridging Language Gaps" App Prototype (2023)

- Designed and prototyped a language accessibility app; presented to judges at the New York Academy of Sciences competition.

RELEVANT EXPERIENCES

BioEcho Life Sciences GmbH – Lead Generation & Market Research Intern

Apr 2026 – Present

- Built data tracking systems in Excel to manage lead pipelines and client outreach, streamlining business development workflows.
- Researched life science industry trends and synthesized findings into actionable sales strategies for cross-functional teams.

Urban Arts Partnership – Alumni Ambassador

Oct 2025 – Present

- Represent Urban Arts at external events and donor engagements, strengthening partnerships and visibility for arts-in-tech education.
- Assisted in building a \$60K sound booth at Urban Arts' NYC headquarters in collaboration with producer IMAKEMADBEATS.

Columbia University – Youth in STEM Scholar

Sep 2024 – Apr 2025

- Completed coursework in Data Science and Machine Learning; analyzed NASA's Exoplanet dataset using Python to build predictive models.
- Presented data-driven NYC traffic congestion solutions to industry judges at a STEM residency hosted by BlackRock, Ares, and Macquarie.

Adobe x HE3AT – Digital Media Intern

Dec 2023 – Jun 2024

- Led a team to research malware threats and develop solutions, creating an interactive webpage using Adobe Creative Suite.
- Produced video content using Premiere Pro and designed graphics in Photoshop and Illustrator; presented the final project to a panel of judges.

Encode Justice – NY Outreach Director

May 2023 – Jun 2025

- Led outreach initiatives on ethical AI and algorithmic justice, organizing hackathons and onboarding 50+ members to grow chapter engagement.
- Managed communications with members and partners, coordinating social media campaigns across research and policy teams.

Project Destined – Real Estate Private Equity Intern

Dec 2025 – Feb 2026

- Modeled three multifamily real estate deals, evaluating returns, leverage, cash flow, and investment risk in individual and team settings.
- Presented investment recommendations in a private equity case study, applying deal structuring and capital sourcing concepts.

Extreme Kids & Crew – Marketing Intern

Jul 2025 – Aug 2025

- Produced multimedia content through event photography and stakeholder interviews for newsletters and social media channels.
- Streamlined cross-team communication by compiling program updates, managing marketing requests, and supporting staff meetings.

MyPy Coding – Python & Scratch Instructor

Feb 2025 – Aug 2025

- Delivered 50+ hours of 1:1 tutoring to middle school students in Python and Scratch, designing interactive projects that built coding proficiency.

PupilPrep – Program Coordinator

Sep 2023 – Dec 2025

- Coordinated mentor training and guidance, managed communications, tracked volunteer hours, and assisted with outreach initiatives.
- Mentored students 1:1 for 200+ hours, designing personalized lessons that improved standardized testing and state exam performance.

NYC Dept for the Aging – General & Administrative Services Intern

Jul 2024 – Aug 2024

- Supported a major office relocation by coordinating logistics, setting up workstations, and producing promotional materials for the new facility.
- Delivered record management training to 200+ staff and produced a motivational video on digitalization.

NYC All-City Concert Band – Clarinetist

Sep 2023 – Jun 2024

- Selected to perform professional-level repertoire; refined ensemble skills through mentorship from New York Philharmonic musicians.
